Idea Brought About Through Desire for Economy in Expenses

County Superintendent J. H. Hoffman, who has been in Harrisburg in close touch with the efforts in the Legislature to do away with county teacher institutes this year as a matter of economy, has sent a letter to the school directors of the county explain-

ing the situation. His letter follows: "A bill introduced by Dr. Leon C. Prince is now before the present session of the Legislature to abolish the County Teachers' Institute. In all probability the bill will be passed. It aiready passed the Senate and is reported out of committee by the House of Representatives.

"There is, however, a possibility that Governor Pinchot will veto the bill on the grounds that it does not come under the provisions for which the special session of the Legislature was called.

"The reason given for abolishing the Institute is that it is too expensive a proposition and that it should be abolished as a measure of economy. "As matters are likely to stand when the Legislature adjourns, the County

THE OTTAWA CONFERENCE

The Imperial Economic Conference draws to Ottawa only representatives from England and the dominions of the British empire, but the United States is there as an interested spectator.

Commerce is carried on by the United States with all of the countries represented and especially with Canada, therefore whatever action the conference may take will affect Uncle Sam's family. The United States and Canada are the best customers of each other. American investments in the dominion far exceed those of England.

Washington cannot dictate to the conference, but American policies will color every act of the conference. No economic discussion can ignore the United States, the world's largest seller and consumer of goods.

Confusion and uncertainty which characterized the conference forecasts may be attributed to the fact that the countries under the British Jack determine their own economic policies and that the conference was called to reconcile and co-ordinate them. On many points agreements will be difficult unless the ties of blood and tradition prove stronger than economic necessity.

THE NEW THATCHER COLT DETECTIVE MYSTERY BY ANTHONY ABBOT

SYNOPSIS

At 11:30 on New Year's Eve, Police Comissioner Thatcher Colt arrives at the exclusive Mayfair Club in response to a mysterious summons from District Attorney Merle Dougherty. The latter informs Colt he believes Lola Carewe, known as "The Night-Club Lady", widow of Gaylord Gifford, the cotton millionaire is the "higher-up" responsible for numerous jewel robberies perpetrated recently which baffle the police. Though her husband died practically penniless, Lola lives in luxury. She arrives at the Mayfair menaccompanied by Vincent Rowland, an attorney. At Lola's urgent request, Colt joins her party. She to awaken you_____ voices the fear that she will not leave Mayfair alive, adding that her dog and parrot were mysteriously book." killed.
